South Amboy Gets Strong Marks From Credit Rating Service

The City of South Amboy's credit rating and outlook continue to earn strong marks from one prominent credit rating service. Standard & Poors Global Ratings recently upgraded the City's rating, for the second time in 4 months, to "AA-" and view the rating outlook as "stable."

Thanks in part to its "strong local economy" and improved "management," S&P expects South Amboy to remain at its new and improved credit rating level over the next 2 years. In its recent report, S&P's based its rating upon its view of the City as having: A strong economy-The City's market value is expected to grow as new development projects are completed; Management-In its report, S&P stated: "We consider management's recent budgetary practices and assumptions markedly improved."; Strong budgetary performance-The City experienced revenue growth from its growing tax base coupled with budgetary cost savings; Strong Budgetary Flexibility-Planning through the creation of reserves provides additional flexibility; Very strong liquidity-Improved liquidity should eliminate the need to borrow cash flow borrowing; S&P indicated in its report: "Approximately 71.7% of the direct debt is scheduled to be repaid within 10 years, which is, in our view, a positive credit factor."

In its outlook, S&P reported that "The stable outlook reflects S&P's opinion of South Amboy's improved and sustained budgetary performance, which has over time led to a strong and stable financial position."

The report was triggered by the City's continued reinvestment in its infrastructure that provides for road repairs and improvements to the community.

Memorial Day Parade

(Article submitted)

Sayreville will host its annual Memorial Day parade on Monday, May 27th beginning at 10:00 a.m. This year the parade is sponsored by the American Legion Post 211. The procession will start at Elizabeth Street and Washington Road and conclude with a service at the Borough Hall on Main Street. On Memorial Day we honor every soldier who has sacrificed so much for us and we thank those that are still fighting to keep our country safe and secure. This year, Larry Bishop, a Vietnam era veteran who proudly served in the US Army Courier Service delivering top secret material, has been chosen as the Grand Marshal. He is a 32-year member of the American Legion Post 211 in Sayreville. He has held many offices and served on many committees at the Post, County and Department level. He is currently serving in his 8th year as Post Commander. Larry served three years as Middlesex County Commander; he also served two years as the Department of New Jersey Vice Commander.

He was appointed to the National Legislative Council and is the liaison to Congressman Coleman. He currently serves as Chairman of the National Security Committee for the Department of New Jersey. Larry believes in the

Legion and its many great programs. He is willing to do whatever is necessary to find help for all veterans in need. He strongly believes in the Four Pillars that the American Legion was founded upon: Veterans Affairs & Rehabilitation, National Security, Americanism, and Children & Youth.

Larry retired in 2010 after 40 years in construction (Plumbers & Pipefitter's Local 9). He is a life member of Elks Lodge 324 and a former 10-year coach and executive board member of Sayreville Little League. He and his wife Lona of 47 years live in Sayreville and have two children, Scott and Jennifer (husband Jeff) and two grandchildren, Andrew and Emma.

Larry considers it a great honor to serve as Grand Marshal of the 2019 Memorial Day Parade representing the American Legion and the Borough of Sayreville.

Credit Rating Service

continued from page 1

The improved rating attracted 6 bidders for the City's bonds, resulting in a very low rate of 2.44% for 14 years, saving taxpayers nearly \$1.5 million in payments on the bonds as compared to initial projections.

"I could not be happier with the result of our latest rating from Standard & Poors" said Mayor Fred Henry. "It is a testament to our years long efforts to position the City of South Amboy on a firm financial foundation. Despite many challenges and the naysayers who have vilified my administration's efforts to bring smart and sustainable developments to our City, it is clear from this latest financial review that we are doing the right thing for present and future residents of South Amboy. The financial professionals we employ have worked side by side with our Business Administrator Glenn Skarzynski, and new CFO Dan Balka, and I could not be more grateful for their hard work."

New Life Books & Bibles, located at 123 North Broadway in South Amboy celebrated its 40th Anniversary this past December 8th. The business is currently the 2nd longest running in town, an amazing feat for any business, and a tribute to New Life Books & Bibles for their outstanding service to the local communities.

New Life carries a large selection of religious items including statues, crucifixes, plaques, rosary beads, CD's, movie DVD's, books, bibles, christening outfits, tee shirts, hats, and much more.

Owner Joan Antonucci said "I have been at the same location for 40 plus years, and I have seen a lot of nice changes to the town. I have been blessed by having this ministry, and I can only thank God for it all. I have learned to live one day at a time, and trust God with this business and my life. So many people have been supporting me for many years, and I have made a lot of friends. I am truly blessed."

Congratulations on your wonderful career Joan, and thank you for all you do for everyone!

ROTARY MONTHLY TOPIC: COMPUTER SAFETY

(Article submitted)

Our speaker this month was Burton Wilkins the branch manager of Amboy Bank located at 412 Washington Road in Sayreville. Mr. Wilkins has been a member of the South Amboy/Sayreville Rotary Club since 2011 and has been the Club Treasurer for the past four years. His topic this month was COMPUTER SAFETY.

The National Safety Institute, Inc. recommends computer users review the following four habits to strengthen your computer security:

1. Your password is weak. Do not use a default password; one that is weak like password or 12345. Today security experts recommend passwords of fourteen characters in combinations of upper- and lowercase letter with numerals.
2. You ignore updates. Updates usually include the latest security adjustments to

keep you ahead of hackers.

3. You click on random or unverified links. Verify email origins before opening them. Hackers can imitate the email addresses of folks you trust.

4. You love public wifi. Be aware of the lack of security in public wifi places.

Hackers have no compunction about invading your computer space or the computer space of your employer. Recovery can be a very expensive proposition.

A PRAYER FOR HEALING
Lord, you invited all who are burdened to come to You. Allow your healing hand to heal me. Touch my soul with Your compassion for others. Touch my heart with Your courage and infinite love for all. Touch my mind with Your wisdom, that my mouth may always proclaim Your praise. Teach me to reach out to You in my need. Help me to lead others to You by my example. Most loving heart of Jesus, bring me health in my body and spirit so that I may serve You with all my strength. Touch gently with this life that you have created. Amen -S.R..

Congratulations!

Yearbook—Hoffman 1994

By Tom Burkard

As Hoffman HS Class of '94 returned to its final year at the John Street institution in September 1993, the top song in the nation was a remake of Elvis Presley's "Can't Help Falling In Love" by UB40. Bill Beattie was principal, and some of his excellent staff of educators included Carol McDonnell, Rich Klein, Tony Gonsalves, Barbara Russell, John Bernosky, Joanne Blackmore, Sheila Inman, Roberta Rim. The yearbook was titled, "All Mixed Up," and was co-edited by Amy Hoehman and Lori Standowski. It was dedicated to Lyn Davis. The Homecoming King and Queen were Oliver Haran and Christine Wence. Some of the Class of '94 selected randomly: Amy Szatkowski, Kim Brinkerhoff, Mark Felice, Lisa Thomson, Robert Senape, Fred Terris, Joseph Farrell II, Daniel Salmon, Beata Piotrowski, Jennifer Walczak, Kathleen Duggan, Chi Leach, Christopher Smith, Monica Lang, Amy Lapworth, Jennifer Simeone, Ronald Ross, Brian Walsh, Annette Was, Grace Murray, Keith Ludlow, Lydia Nicewicz. Some of the many "big" social happenings at the school included Pudding Wrestling; Halloween Happening; Spirit Week Olympics; Medieval Times; National Honor Society Tapping; and of course the school play, "Little Shop of Horrors." The Student Council President

was Amy Hoehman and her officers were homeroom representative/organizer—Grace Murray, corresponding secretary—Melissa Paul; recording secretary—Kim Oshman. Senior Class Officers were: President—Jimi Cross, VP—Jeff Melhorn, Treas.—Lenny Smith, Sec.—Jasmine Baran. Hoffman High's Class of '94 had many talented athletes including Oliver Haran, Lenny Smith, Gema Kay, Lisa Ryan, Amy Hoehman, Adam Treiber, Ronald Brown, Eric Tambora, Jim Casanova, Robert Thomas III, Gustavo Torino, Kimberly Oshman, Michael Glasser, William Disbrow, Nelson Reyes, Timothy Bowers, Christopher Skryzniarz, Nancy Baranowski, John Charmello, Robert Matthews, George Baranowski, Janice Aucone.

The song "I Swear" by All-4-One was the song most played on radio, and Hoffman High's Class of 1994 probably listened to it in their cars on the way to graduation. H.G. Hoffman High School's Class of '94 was an interesting and talented group, and what a "crazy" yearbook! I have researched hundreds of yearbooks through the years, but this one is a real "standout!" It really was "All Mixed Up." I'm still dizzy from turning it upside down! (LOL)

Bars in South Amboy-50 Years Ago

Thank you to everyone who helped add to our list of South Amboy bars/liquor stores from 1969, that we missed last month. John Letteriello of South Amboy mentioned "Annabel's at the bottom of Augusta St., and Gay 90's (they made tomato pies) on First St."

Mary Agnes Morris, also of South Amboy said that we listed Tom & Box's, and also Muff's Tavern on John St. in the article, but "They were both before 1969."

Don Zrebiec said, "I didn't see Pine Liquors on the list (unless it went by another name I didn't recognize). It used to be at 101 South Pine Ave."

Sayreville War Memorial HS Student Designs Winning Logo for Borough

Riverton Awards \$1,000 to High School Senior Patrick Pusung

Local high school student, Patrick Pusung, has made a lasting mark in Sayreville. The borough's leaders are embracing his municipal logo design which ties into the centennial celebration of the borough's incorporation in April 1919.

Pusung participated in logo design contest coordinated and sponsored by Riverton, the mixed-use development comprising more than 400-acres along the Raritan River, in conjunction with Sayreville High School's graphic design department. As the winner of the contest, Pusung, who plans to study graphic design in college next fall, was awarded a \$1,000 scholarship for developing a new logo for the borough.

Pusung presented his creation to Mayor Kennedy O'Brien and the Borough Council on Monday, March 25.

Students created draft logos based on feedback from Sayreville residents who visited the Riverton tent at the Saint Stan's Carnival in the summer and at Sayreville Day last fall. Residents were asked: "What does Sayreville mean to you?"

"The descriptive words included family, friends, diversity, hard work, and the connection to the outdoors. The high school art students were then asked to incorporate this feedback into a fresh, new logo," explained Kevin Polston, Project Executive for North American Properties' Riverton team. "Patrick's work demonstrated not only a strong connection to his community, but an obvious talent for design. We're elated to present Patrick with a \$1,000 scholarship to help him continue to pursue his passion at college next year."

"We are very proud of you," Mayor O'Brien told Patrick and his family. "It's a great design, and it makes us all proud."

Lighting Up...Killer Marketing

By Elaine Holton Scott

In the SATimes, May 2011 edition, my column, "Lighting Up" was printed describing what it was like to grow up in a world which promoted smoking. Having been a smoker myself, I'm well-aware how addictive tobacco is. So, I began to wonder how tobacco companies got people to light up in the first place...and keep on lighting up, no matter what the cost.

Nicotine has a very calming effect. It could even make a soldier less jittery before battle. Knowing this, cigarette companies saw their opportunity during WWI and "kindly" sent our boys free cigarettes and pipe tobacco hoping they'd become addicted. When the war was over, soldiers returned home, usually with a pack of unfiltered cigarettes in their pocket. The tobacco companies did the same during WWII, the Korean War and in Vietnam. How wise they were, as every pack donated had meant a steady revenue for many years to come.

Seeing the "sirens" of the silent films smoking with their long cigarette holders had a big impact on young females, especially the "flappers" during the roaring '20s. In the '30's, '40's, and '50's, movies continued to portray "modern women" smoking as it did men, who usually had a cigarette either dangling from their lips or in their fingers. Tobacco companies had counted on these "not so subliminal" messages to entice the young to emulate their favorite stars. It worked, and smoking became a common sight on both big and small screens alike. Even one of the most popular animated shows of all time in the early 1960's, The Flintstones, had Wilma and Fred smoking. That's not surprising as the show was being sponsored by seven different brands of tobacco products.

Baby Boomers like myself had grown up in a world wherein smoking was a part of life. We saw adults smoking in homes, on TV, in movies, on buses, on street corners, in diners, in cars, and just about everywhere we went. I don't think it's too hard to believe the company which had manufactured candy cigarettes very possibly had a tobacco company as a silent partner, in a pathetic attempt to groom children to be future smokers. As R.J. Reynolds had stated in 1974, "Realistically, if our company is to survive and prosper, over the long term, we must get our share of the youth market," and that's exactly what they did.

After The Federal Cigarette Labeling and Advertising Act was passed, it became a requirement as of January, 1965, for every pack of cigarettes to contain the label, "Warning: The Surgeon General has determined that cigarettes may be dangerous to your health." Even so, the Admen for Virginia Slims looking for more profits came out with their, "You've come a long way, baby" commercials and magazine ads with beautiful, well-dressed women looking smart and oh-so chic. In 1969, all commercials for tobacco products were banned from TV and radio...but not so in print. Meanwhile, the tobacco companies continued to tempt the "youth market" by "changing up" their product, adding different flavors to the tobacco. They're still doing it.

***In 1994, when top executives from the major tobacco companies appeared before the House Energy Subcommittee on Health and Energy, each of the 7 executives present, declared they did not believe nicotine in cigarettes was addictive. It's always been all about the money.

What is Memorial Day

Memorial Day, which was originally called Decoration Day, is a day of remembrance in honor of America's war dead. Decoration Day was officially proclaimed on May 5, 1866 by General John Logan, National Commander of the Grand Army of the Republic. It was first observed on May 30, 1868. May 30th was chosen specifically because it was not on the anniversary of a major battle. Federal law recognized the holiday as "Memorial Day" in 1967. In 1971, a law was passed moving the date from May 30 to the last Monday in May.

The Smoke Column

By Ex-Chief Richard Kosmoski, BA, MS

As you travel south on the Garden State Parkway in early spring, don't be surprised if you get an odor of burning wood. Don't be alarmed because during this time of the year there is "prescribed or controlled" burning taking place. This mostly occurs from milepost 120 on south and especially in the area of the Pinelands National Forest. At any time, you may observe large plumes of smoke coming from these wooded areas in Monmouth, Ocean, Burlington, and Atlantic counties. On sunny, dry, windless days, the New Jersey State Forest Fire Service (NJSFFS) conducts these prescribed/controlled burns.

You may be wondering why the NJSFFS must burn naturally good woods and wildlands? These fires are well planned and are supervised during the entire operation. These prescribed burns are a necessity for a healthier and safe wildland/urban interface.

A controlled/prescribed burn, also known as hazard reduction burning, backfire, swaling, or a burn-off is a wildfire set intentionally for purposes of forest management, farming, prairie restoration or greenhouse gas abatement.

A controlled burn may also refer to the intentional burning of slash and fuels through burn piles. Fires are a natural part of both forest and grassland ecology and a controlled fire can be a tool for foresters. Hazard reduction or controlled burning is conducted during the cooler months and just before the growing season to reduce fuel buildup and decrease the likelihood of a more serious and hotter fire. Controlled burning stimulates the germination of some desirable forest trees and reveals soil mineral layers which increase seedling vitality thus reviving the forest. Some pine cones are serotinous and require heat from fire to open and disperse seeds. Back burning involves starting small fires along a man-made or natural firebreak in front of a possible main fire front. Back burning reduces the amount of fuel that is available to the main body of fire by the time it reaches the burnt area.

In New Jersey, the NJSFFS personnel use best management practices to control the impact from smoke during burns by only burning when there is little to no wind or that it is blowing in a favorable direction away

from residential areas.

Motorists traveling the roadways in an area of a controlled burn are advised to use caution and lower their speed when driving into smoky areas when due to reduced visibility. Since 1906, the NJSFFS has protected property, lives and infrastructure by creating defensible space and strategic fire breaks near developed areas. These prescribed burns do help to prevent wildfires, reduce the intensity of these fires when they do occur, and provide a foundation for safer, more effective fire suppression and protection operations.

Controlled burns are conducted throughout the world for the same reasons they are conducted in the United States. These controlled burns are very popular throughout the western United States where the wildlands and urban areas interface. The controlled burns are started by persons walking the edges of the woods carrying a drip torch that spits a flaming fuel oil into the forest floor causing instant ignition. The burning debris is only the top ground cover and the fire is controlled so as not to get into the aerial fuel of the trees. If a wildfire does occur and it approaches an already burned out area, it will have no place to advance and will quickly burn itself out. Areas are burned on a 5-6 year cycle, depending on how long it takes to build-up a substantial quantity of dead leaves and underbrush.

Just a few weeks ago many of us witnessed the effects of an out of control wildland fire in Burlington County when the smoke from that fire traveled north into Middlesex County. We were able to smell the odor of smoke and seen a haze in the area.

The next time you travel south on the GSP in the early spring, be aware for controlled burns. You may even get an advanced warning of controlled burns in progress by one of those overhead informational signs before you even smell or see the smoke.

Blaise Maris

Another Maris!

If the name Maris sounds familiar, you've been around for awhile or are a true baseball fan. Blaise Maris, wears uniform #9 with Florida Tech (16-14), the same his grandfather Roger Maris wore with the NY Yankees in '61, when he shattered Babe Ruth's home run record by blasting 61 dingers to lead the Bronx Bombers.

Blaise Maris apparently has some good baseball genes, and leads the team with 5 home runs, and is hitting .327, with 33 hits, 7 doubles, and 18 RBI. This young college player could be very interesting to follow, and probably will be a MLB draft pick in the next year or two.

Longtime Sayreville Bombers basketball coach John Wojcik will find himself in a new coaching position this year as an assistant men's basketball coach at Ramapo College, where he played college ball under his new boss Ramapo's head coach Chuck McBreen. Wojcik, a Sayreville native, who played on the Bombers only GMCT championship team in 2000, has had a terrific run for 10-years at the Sayreville helm. In 2016-17, he guided them to the GMCT finals, only to fall to a powerhouse St. Joseph's Metuchen squad. His club finished with an outstanding (22-8) showing, and for his stellar coaching, was selected as the Home News Tribune Coach of the Year for the season. He took his teams to 7 GMC quarterfinals, and 3 semifinals during his 10 seasons as head coach. John said that he will continue teaching in the school, and "I'll always be a Bomber."

Sofilkanich To Coach Plainfield

Don Sofilkanich of South Amboy, a highly-regarded high school football coach, has been hired as Plainfield High School's new head coach. Sofilkanich has been very successful since 2007, coaching at several different high schools, and building a reputation of reviving football programs that have not put up winning seasons. Plainfield has not had a winning year since '05, and over the past 12 years has a poor (24-46) mark.

Don got his head coaching start in 2008, taking over Asbury Park, which was (1-9) prior to his arrival. His fine leadership guided them to a superb (33-3) and three straight CJ Group I championships. He also coached at

Holmdel, (In 1 season finished (6-4), and a share of the Shore Conference C South title), Bishop Ahr, Neptune (in 2010 guided them to a (6-4) mark and a CJ II playoff spot), and most recently at New Brunswick, where he took a program that had a (2-36-1) with a 26-game losing streak prior to 2014, when Sofilkanich took over. After going (3-7) in his first year at the Zebras helm, he guided them to a fine (9-2) finish, and their first postseason showing in nearly 10 years. At Bishop Ahr from 2011-2013, his team went (12-18), losing 7 games by a total of only 21 points. Congratulations and best of luck, Coach Sofilkanich and continued success!

What Is A Baseball Glove?

The following was written in a magazine ad in 1965: **What Is A Baseball Glove?**

"A baseball glove is a beginning and an ending; a boy's first sure step towards manhood; a man's final, lingering hold on youth; it is a promise...and memory. A baseball glove is the dusty badge of belonging, the tanned and oiled mortar of team and camaraderie; in its creases and scuffs lodge sunburned afternoons freckled with thrills, the excited hum of competition, cheers that burst like skyrockets. A baseball glove is a thousand and one names and moments

strung like white and crimson banners in the vast stadium of memory. A baseball glove is the leather of adventure, worthy successor to the cowboy's holster, the trooper's saddle and the buckskin laces of the frontier scout; it is combat, heroics, and victory...a place to smack a fist or snuff a rally.

Above all, a baseball glove is the union of father and son, boy and friends, man and men: it is union beyond language, creed or color."

Brandon Bielak

Bielak Excelled In Spring Training

By Tom Burkard

Sayreville's Brandon Bielak made his first two Major League Baseball outings with the Houston Astros most memorable. With a blazing fastball clocked at 96 mph, he struck out the first 3 New York Mets he faced on only 13 pitches to end the 8th inning of a Spring Training game. In 2 early Grapefruit League games, he worked 4 innings and struck out 5, and really caught the eyes of Houston's top brass, whose organization is loaded with pitching prospects.

Bielak started the 2019 season with Corpus Christi in Class AA, and hopes to work his way to the bigs, quite possibly this year. Best of luck to a very talented young baseball player!

Dear SA Times,
The WWW.? picture in your 30 Mar 2019 edition is of 113-115 South Broadway in South Amboy, home of Vintage Hair Salon (113) and Colleen's Kitchen (115). The part of the building occupied by Vintage Hair Salon used to be the place where News Tribune paper carriers would pick up their newspapers in the 1970's. I had the route on Main Street, from Briggs' car dealership at Broadway to Massing's Exxon station at Thompson Street. It was the same route my father Lou had when he was a kid in the 1930's.

Hi Tom,
Loved the March Issue! That's Colleen's Kitchen & Catering.

I'll call her, order a Turkey and a Roast beef Sub and she'll cut them each in 8 pieces and put them on 2 paper plates covered in cling wrap. I can walk into a party with a plate in each hand like a rock star!

No extra charge for all that. She's top shelf. Good Potato Salad, too.

Soccer Risks

Research is inconclusive on whether repeatedly bouncing a soccer ball off young player's head can affect the child's thinking ability.

Some studies have found that players who suffer repeated blows to the head can suffer impaired brain function years later. Players can also suffer head injuries by running into other players or a goal post, or striking their head on the ground in a fall.

Research indicates on crash test dummies that the impact of a ball is powerful enough to warrant head protection.

A study published in the Journal of the American Medical Association in 1999 reported that amateur soccer player scored lower than other amateur athletes on test of memory and planning. The researchers suspected that repeated blow to the head might be the reason. Other studies in Europe, found similar problems in elite players.

Researcher Mariccz Ziejewski of North Dakota State University tested the impact of soccer balls on crash test dummies heads and used computer modeling to estimate what those results could mean in terms of brain injury. The balls struck the heads with 150 - 200 pounds of force, which Ziejewski considered to be less than those which can occur in a goal.

In a properly headed ball, the forehead takes the impact, and bent knees absorb much of the force. But in an improperly headed ball by an inexperienced player who may be caught by surprise, movement of the head creates rotational forces on the brain. Some of the impact would be sufficient to create shearing stresses that could stretch and deform brain tissue, if the ball is not headed properly. If you execute the header properly, the effect on your brain is most likely minimal, however, if you get hit in the head and don't expect it, it could be a different story.

Even though there are few reported cases of concussion, which itself is not always easily to identify on the field. The cumulative effect of repeated head trauma could not be taken too lightly.

Middlesex County College Names Mark McCormick as President

Middlesex County College has appointed Mark McCormick as the seventh President of the College after he served for the past nine months as Interim President. Prior to serving as Interim President, Dr. McCormick served as Vice President for Academic and Student Affairs at MCC for five years.

"We are very pleased that Mark will be leading our institution into the future," said Board Chairman Dorothy K. Power. "Under his leadership, we have made significant advancements. He has an extensive background in higher education along with a solid vision and strong leadership and communication skills. We are thrilled that he will be our president."

Dr. McCormick has over 30 years of experience at two-year colleges and has an extensive record of achievement. In collaboration with faculty and staff, he has led successful initiatives to improve student outcomes in the areas of retention and completion at every institution he has served. Dr. McCormick has directed the development of 24 new degree programs – eight of them at Middlesex – in high-demand fields such as Exercise Science, Game Design and Sustainable Energy.

"I'm tremendously honored," Dr.

McCormick said after the Board voted to appoint him at the April 2 meeting. "We've made tremendous strides over the past nine months. We've got more work to do – and I take that quite seriously; it's a big job. And I can't do it alone, so I look to partner with you. We have to keep working together smartly and keep thinking about our students. I look forward to continuing the work we do. I'm up for the challenge and I appreciate the honor."

As Vice President and Interim President at MCC, he supported the faculty in a major revision of the English as a Second Language Program; established a new one-stop student services center incorporating admissions, registration, advisement, financial aid, veterans services and student accounts; and he spearheaded adoption of open educational resources, providing free texts and other materials to students. He also championed the creation of a student food pantry.

He served as a faculty member at Peirce College and the Community College of Philadelphia for 18 years before moving into academic administration in 2004. Dr. McCormick was Dean of Business and Technology and Acting Vice President for Academic and Student Affairs at Mercer County Community College and Dean of Academic Affairs and Vice President for Academic Services at Salem Community College. He was appointed Vice President for Academic and Student Affairs at Middlesex in August 2014 and then Interim President in July 2018.

"Mark has a strong focus on helping students, and ensuring they have every opportunity for success," Mrs. Power said. "He has significant experience in curriculum development, assessment and accreditation. He is a very effective communicator who believes in transparency and seeks to foster a sense of community among students, faculty, staff, and external stakeholders. I think he's going to be an incredibly effective president."

Dr. McCormick holds a B.A. in French from Davidson College, a J.D. from New York University School of Law, and an Ed.D. in Higher Education from the University of Pennsylvania. He succeeds Joann La Perla-Morales, who served as the College's sixth president for 13 years before retiring in June.

BETTER..... "BECAUSE WE WANT TO BE"

Fishing Flashes

By Teo "Weebles" Weber

Salt Water

Striped Bass fishing in Raritan Bay has finally gotten better. I saw a few shorts at the beach by the sewer plant in Lawrence Harbor. I heard of more keeper Bass too. There are also Stripers being caught in the surf in some areas. There are a few Black Drum showing up at LBI. Quite a few Stripers have been found in Barnegat Bay off the public dock areas. More Flounders are being caught in Shark River, but that fishing could be better. With Black Fish season, some party boats anglers have caught their limit of 4 fish. Overall this fishing is spotty and not consistent. A few Ling and a stray Cod or two are being caught at the Mud Hole. The deeper water is full of Dogfish if they go further out.

Fresh Water

Opening day Trout season was a success. Good catches of Trout were made and conditions were good state wide. I was not able to make it out on opening day, but my wife and I tried the Pequest on the afternoon of the following day. I came home with 2 Trout both 13 inches. We gave Spring Lake a try late in the afternoon one day during mid-week, but it was "no go". We tried hard with bait and lures. There were quite a few people there; I only saw one fish caught. The Shad run has started in the Delaware River.

Gone Fishing

On March 22, this 27 lb. kingfish was caught fishing from the Papa Bear Too, off the coast of Palm Beach, Florida. "Capt. Rudy Neumann as always put us on the fish," said the happy crew, pictured (l-r) Randy Neumann, Julia "Nana" Neumann, and Larry Parsons, all South Amboy residents. The tally for the week was: 7 kingfish, 1 mahi mahi, 1 monster mutton snapper, 1 amberjack, and "1 big hammerhead shark which we released, because we like our fingers, and lots of laughs. It was a great week of fishing with family and friends." (Photo/Info Submitted)

PRAYER TO ST. JUDE

(To be said when problems arise or when one seems to be deprived of all visible help, on far cases almost despaired of). Most holy Apostle St. Jude, faithful servant and friend of Jesus, the church honors and invokes you universally as the patron of hopeless cases, of things almost despaired of, pray for me, I am so helpless and alone. Make use I implore you of that particular privilege given to you, to bring visible and speedy help where help is almost despaired of. Come to my assistance in this great need that I may receive the consolation and help of heaven in all my necessities, tribulations, and sufferings, and that I may praise God with you and all the elect forever. I promise O Blessed St. Jude, to be ever mindful of this great favor, to always honor you as my special and powerful patron, and to gratefully encourage devotion to you. Amen. Thank You St. Jude. -B.S..

A PRAYER FOR HEALING

Lord, you invited all who are burdened to come to You. Allow your healing hand to heal me. Touch my soul with Your compassion for others. Touch my heart with Your courage and infinite love for all. Touch my mind with Your wisdom, that my mouth may always proclaim Your praise. Teach me to reach out to You in my need. Help me to lead others to You by my example. Most loving heart of Jesus, bring me health in my body and spirit so that I may serve You with all my strength. Touch gently with this life that you have created. Amen -B.S..

"Moe" attended St. Stan's Grammar School, and Sayreville HS, where he excelled in basketball and football. He played on the Bombers undefeated football team in 1949, and was picked for all-state. He went on to serve in the Korean War.

Greg Booker Remembered

By Tom Burkard

Gregory S. Booker, 58 years old, and the son-in-law of Jack and Carol McKeon, died on March 30th after a courageous battle with melanoma. He was married to Kristi Ann McKeon for 37 years, and had 4 children and 4 grandchildren.

Greg pitched in the major leagues for 8 seasons with San Diego, Minnesota, and San Francisco. In 1992, he started a coaching career with the Cleveland organization with the Burlington Indians, and later served as a major league pitching and bullpen coach up to 2003. He most recently was a scout with the Los Angeles Dodgers.

Many locals probably had a chance to meet him when he came to South Amboy in 2000 for Jack McKeon Day, when Jack was in town to help the South Amboy First Aid raise money by having an auction, dinner and much more. He was a really good guy, and first class all the way, and from all reports from where he lived in North Carolina, touched many lives along the road of life, and will be sadly missed.

Perennial

By Al Gomolka Jr.
 Times Poet Laureate
 c.1987

For all of you of broken heart
 I've got a story to be told
 About a man who thought because
 You lose at love, you just grow old
 Alone and sad and dry
 Can't seem to want to try
 So just sit alone and cry
 You just sit alone and cry
 Oh, there will be a brighter day
 I know you've heard this song before
 Give your heart the time to mourn
 Then keep it open like a door
 Don't regret or scorn the past
 Your heart's born with love that lasts
 It's as perennial as grass
 As perennial as grass
 Take it from this man who knows
 For I too lost all belief
 But then my true love came along
 You see, failure doesn't mean defeat
 I know, failure doesn't mean defeat
 So, don't regret or scorn the past
 Your heart's born with love that lasts
 It's as perennial as grass
 As perennial as grass.

Prayer is Powerful

(Never known to fail) Oh, most beautiful flower of Mt. Carmel, fruitful vine, splendor of Heaven, blessed Mother of the Son of God, Immaculate Virgin, assist me in my necessity. Oh Star of the Sea, help me and show me, herein you are my mother. Oh, Holy Mary, Mother of God, Queen of Heaven and Earth! I humbly beseech you from the bottom of my heart to succor me in this necessity. There are none that can withstand your power. Oh, show me herein you are my mother. Oh Mary, conceived without sin, pray for us who have recourse to thee (3 times). Holy Mary, I place this cause in your hands (3 times). Say this prayer for 3 consecutive days. You must publish it and it will be granted to you. Thank you. -A.J.
