Frank Kurzawa, And Bill More Will Be Missed

By Tom Burkard

The Borough of Sayreville and City of South Amboy are mourning two of their most prominent business leaders, who recently passed away. Frank Kurzawa Jr. 80, who was the owner/operator of Kurzawa Funeral Home in South Amboy for many years, died on June 25th. William "Bill" More, 80, who was the owner and operator of More's Jewelry in Sayreville for 45 years died on July 14th. Both gentlemen were well-known, highly-respected, and loved throughout the neighboring communities and will sadly be missed for their many commendable contributions to the towns of Sayreville and South Amboy. I was truly honored to get to know these great guys on a business level, as I dealt with them each month for many years, going over their advertisements for The South Amboy-Sayreville Times, and found them to be a pleasure to deal with, business-wise, and more importantly good friends who I will never forget. God Bless Frank and Bill.

Father Dennis Celebrates 35 Years As Priest

By Steve Schmid

Saint Mary Pastor Father Dennis Weezorak is observing an important milestone this summer. Father Dennis is celebrating the 35th anniversary of his priestly ordination. He was ordained to the priesthood on May 3, 1986 in the Archdiocese of New York. He served as associate pastor and administrator at several parishes and was Director of Ministry for the separated/divorced within the Ogdensburg Diocese in upstate New York. Father Dennis traveled west and served in the military chaplaincy for the U.S. Air Force in several locations and was a hospital chaplain in San Antonio, Texas. Father Dennis came back east and was incardinated into the

Metuchen Diocese January 10, 1994 and has served as associate pastor in several parishes including Saint Mary where he briefly served as administrator. Father Dennis was installed as pastor of St. Mary on October 28, 1997. Father Dennis frequently tells his parishioners St. Mary is "your church." He tells them to express their faith in different ways. He is always willing to listen to new ideas and the parish has held several novenas, rosary rallies, potluck suppers to help build community spirit, and with anything that expresses faith. Father Dennis has created an atmosphere that is open and welcoming.

The festival, which will begin at 2pm, will include music, food and craft vendors, kid friendly activities, puppet shows, entertainment and will culminate in a fireworks display at dusk. The SA Times Poet Laureate Al Gomolka is a man of many collections. He recently sorted out over 65 of his special tee shirts, mostly from the many sports teams he played for through the years, and here are two of his favorites. Pictured (l) was a St. Mary's HS gym shirt from his freshman year 1965-66, which makes this one...56 years old! Wow! Pictured (r) was from the first Mechanicsville Bombers softball team in 1971-50 years old this summer! The Mechanicsville Bombers competed in the South Amboy Men's Senior Slow Pitch Softball League, Men's Senior Basketball League, and South Amboy Touch Football League. The Bombers later became known as Mechanicsville A.C., and everyone that played for the teams through the years had a lot of fun! (Photos/story by Tom Burkard)

A PRAYER FOR HEALING
Lord, you invited all who are burdened to come to You. Allow your healing hand to heal me. Touch my soul with Your compassion for others. Touch my heart with Your courage and infinite love for all. Touch my mind with Your wisdom, that my mouth may always proclaim Your praise. Teach me to reach out to You in my need. Help me to lead others to You by my example. Most loving heart of Jesus, bring me health in my body and spirit so that I may serve You with all my strength. Touch gently with this life that you have created. Amen -S.R..

The Miraculous Prayer
Dear Heart of Jesus, in the past I have asked for many favors. This time I ask you this my special one (mention favor). Take it, Dear Jesus, and place it within your own broken heart, where your Father sees it. Then, in His merciful eyes, it will become your favor, not mine. Amen. (Say this prayer for 3 days, promise publication and your favor will be granted. Never known to fail.) -C.P.

July Is Humid Rainy Month

By Steve Schmid

You may have noticed that this July has frequently been a humid soggy mess with bouts of heavy rainfall and hot temperatures. When we walked outside it felt like we donned saturated clothes with beads of sweat on our forehead. The rainy days followed May's dry heat and the days of mid 90s scorchers in June. The first two weeks of July brought a month's worth of rain that is great for flowers and lawns. David Robinson Chief climatologist at Rutgers University said New Jersey imports its weather from elsewhere because of our location in the middle latitudes. This summer the import has been a southerly flow bringing moisture and warmth. He said there has been a conveyor belt of warmth that has pushed up the coast from the South and also guided Tropical Storm Elsa our way causing significant flooding. He hopes August will be more pleasant and drier.

PRAYER TO THE BLESSED MOTHER
(Never known to fail) Oh, most beautiful flower of Mt. Carmel, Fruitful vine, splendor of Heaven, blessed Mother of the Son of God, Immaculate Virgin, assist me in my necessity. Oh Star of the Sea, help me and show me, herein you are my mother. Oh, Holy Mary, Mother of God, Queen of Heaven and Earth! I humbly beseech you from the bottom of my heart to succor me in this necessity. There are none that can withstand your power. Oh, show me herein you are my mother. Oh Mary, conceived without sin, pray for us who have recourse to thee (3 times). Holy Mary, I place this cause in your hands (3 times). Say this prayer for 3 consecutive days. You must publish it and it will be granted to you. Thank you. -M.M.

Business Of The Month John Auto Center

John Auto Center located at 272 North Stevens Ave. South Amboy features an excellent staff of expert mechanics. Pictured (L to R) Alex Shevtsov, Owner Surjit Singh, South Amboy Police Chief Darren LaVigne, and Chris. (Photo by Tom Burkard)

By Steve Schmid

Thirteen and a half years ago, Surjit Singh achieved his dream of opening an auto repair business. He saw an opportunity in South Amboy because there were few auto repair facilities in town. He bought the former Harry's Auto Repair on 272 North Stevens Ave. and opened in January 2008. Surjit quickly established a connection with people and South Amboy Council President Mickey Gross was one of his first customers. His reputation has grown over the years. He is a strong proponent of law enforcement and many South Amboy police officers stop by, including Police Chief Darren LaVigne who calls him "the friendliest mechanic in South Amboy." By the 1990s every car's computers controlled sensors, combustion and electrical systems. Surjit's mechanics know how to deal with computers that monitor engine emissions. They'll inspect your car and fix any emissions problems or other issues so you'll pass inspection. Their work is 100% guaranteed. They are well trained to fix modern and older vehicles and are certified to repair foreign and domestic cars and trucks. No job is too big or too small. They'll fix your lawn mower or snow blower or replace a light bulb, and if necessary replace an engine. When you have a problem, they will thoroughly check your vehicle and bring a diagnosis. They'll inform you what they learned before they

start work, so you'll make an informed decision. Surjit loves working on cars and getting them back on the road. He's worked on them since junior high school when he changed oil, fixed brakes, and replaced lights for his family and friends. His mechanics share this passion for repairing cars and returning them to their customers. Local residents have noticed and provided internet reviews. Victoria G said "I really recommend it!! The owner is awesome and really goes out of his way to make sure my car is fixed as quickly as possible!! Also I was told by others that my car was not fixable but he fixed it in just a day. Also pricing is cheap. I have been going to him for years now and never plan on switching." Ted C added "Just moved to the area and I have to say I will definitely be a repeat customer for all my vehicles. Thought I had issues with my ball joints and turns out I only needed new tires and alignment. Not your typical auto repair shop that will nickel and dime you and are very HONEST. They are very law enforcement supportive." The motto at John Auto Center is "Winter Spring Summer Fall We can basically do it all." They'll be glad to give you an oil change if you need it. They are open Monday to Friday from 8 am to 6 pm. and Saturday from 8 am to 5 pm To make an appointment call 732-727-8500 or stop in and say "Hi" You'll be glad you did.

The church is really enjoying 'getting back to normal' with their weekly services and starting Sunday School in September. Our Thrift Shop continues to remain open on Tuesday, Thursday and Saturday from 9 am to 11 am. Our hours changed due to the hot weather. God is good and we are eager to be sharing the news!!!

CALL FOR ARTWORK

The South Amboy Arts Alliance believes that art has the power to ignite a flame in our hearts, transform our minds and reveal beauty and awe in the world to inspire awareness.

Therefore, at this time, we are calling for original artwork that can help nurture healing and personal growth. Over these past months, artists created their means of surviving the social emotional strain which brought the world horror, pessimism and confusion. The South Amboy Arts Alliance is looking for original artwork created over the past year that shows a sacred place or one that became important or, perhaps, one that showed an act of kindness that brought peace, hope, and a smile to one's face.

South Amboy Arts Alliance is a non-

profit group that works with the City of South Amboy located in Middlesex County NJ. We are referred to as 'South Amboy Arts' and we are seeking artwork to begin our next gallery and street art show. This show called 'Art on Broadway' is being made possible by a grant from the Arts Institute of Middlesex County. The original artworks will hang in the SA Gallery on Broadway for our Artsfest 2021 Exhibition. The winning entries will be reproduced on banners to hang throughout our city over the next months. For more information contact the South Amboy Arts Alliance at 732-727-4600 x5971 or SAArts141@gmail.com See us on Facebook [southamboyartsalliance](https://www.facebook.com/southamboyartsalliance)

The book signing was originally scheduled for March 21, 2020, but COVID-19 prevented it from happening.

Mary is a retired art teacher whose father was South Amboy's milkman and whose

grandfather was South Amboy's mayor. Another South Amboy native, Dan Toye, a popular local musician, will be playing from 2 - 4pm on Aug. 8th as well. Please come out and support the arts and the Blue Moon.

The Smoke Column

By Ex-Chief Richard Kosmoski, MS

One of a firefighter's worst nightmares is responding to an unknown hoarder's house fire. In the first place, we do not always know which house is a hoarder's home and then the unknown which and how much is being hoarded inside the structure. There have been many cases where firefighters have been trapped inside a hoarder's home and died because of the situation. A famous hoarder's house made news in 1947 when two brothers, Homer Lusk Collyer and Langley Wakeman Collyer, were found dead in their home in March 1947. Both men were in their 60's and were well educated. Inside their home, their bodies were surrounded by over 140 tons of collected items that they had amassed over several decades. One of the brothers used his engineering skills to construct booby traps and tunnels among the trash that filled the house. The house soon became a maze of boxes, complicated tunnel systems consisting of junk and trash rigged with trip wires. These men lived in "nests" that were created amongst the debris that was piled from floor to ceiling.

Now think to yourself of a situation like that occurring in your neighbor's home. Most times you have no idea what is inside their home. The social climate in today's neighborhoods is much different than it was in the 1950's. Today you may not see your neighbor for weeks let alone not knowing what is inside their house or how they live. This can be a disaster in waiting for an unsuspecting firefighter responding to a fire in the structure. Firefighters are trained to conduct a primary search of a structure that is on fire looking for any survivable occupants. They are trained to enter the structure, crawling on the floor, down below the fire heated temperatures at the ceiling level. This search is usually conducted with limited or no visibility due to the smoky conditions from the fire. As the firefighter's crawl through the structure, it is almost impossible to identify the furniture or other items strewn throughout the rooms. It would

be so easy for a firefighter to become trapped or entangled amongst the debris. Firefighters may become complacent and not think that the occupants of the fire building are hoarders. If the debris falls on the firefighter, he may become trapped under this debris and his fellow firefighters may not be aware of his situation. His air supply is limited so he must be found and rescued quickly. This may all be happening under heavy fire conditions, limited visibility, and with the potential of a structural collapse. Unfortunately, the fire service does not usually have the information on a hoarder's residence. At which time does a home constitute a hoarder's home? A home with much accumulated "stuff" must build up inside before it is classified as a hoarder's home? Their collection of "stuff" is their goldmine but to us it may all be junk and of little value. There are no cut and dry answers to these questions. Firefighters are taught in their basic training to be always aware of their surroundings and this we call "situational awareness." Before entering a structure on fire, we must size-up the situation from the outside before entering. This may or may not give us some indication of what to expect once we enter the structure. We must always remember to "expect the unexpected." This thought alone may be the difference in a life-or-death situation and hopefully help us determine our strategy and tactics to use to suppress the fire.

When all else fails, revert to the basics of firefighting!

My Little Town

By Elaine Holton Scott

Leaving the house through the back door, the house which my great grandparents had built and where I had called home, I'd often see Mrs. Julie Croddick hanging out a big load of wash in her backyard. "Hello, Mrs. Croddick!" I'd call out to her, waiting for her to wave to me. In the window of the house behind our backyard, I'd see Mrs. Marie Newcomb standing looking out while she worked at her sink. She was easy to see as Wilmont Street is quite a bit higher than Conover which was "my street." "Hello, Marie!" I'd yell to her and see her wave through the screen. Getting to the front of the house, it was common to see Emma Lonseth beating a carpet with a rug beater and her daughter, Evelyn Burkard, sweeping their already spotless front porch. Heading down the street, I'd pass the Kurtz house, always a place of "movement" all day long. Walking fast, I'd meet my friend, Nancy Newcomb at the corner of Alpine, and we'd walk down Conover, always respectfully saying hello to all the adults we passed. If we weren't "respectful," we'd surely hear about it later. Onward we walked, crossing Ridgeway Avenue, then into the hole-in-the-wall which effectively divided Mechanicsville and our Sayreville next door neighbor, Melrose, from the heart of South Amboy. That's where the "action" was to those of us on the other side of the infamous hole-in-the-wall.

book worth the ten cents it cost.

Although school was out for the summer, there would still be "Sisters of Mercy" walking to and from their convent located on the corner of Augusta and Stevens Avenue. Sisters of Mercy...an oxymoron to many of us who knew better. At that time though none of us had heard of the word oxymoron much less its definition. If you ever watched the movie, *The Blues Brothers*, you'd know what I mean. To see a priest, you'd have to go inside St. Mary's Church to attend Mass or go to Confession. At that time when female heads had to be covered inside a church, during the summer no tissue or handkerchief to pin to your head meant going to Confession was out. Why boys didn't have to cover their heads entering a church always seemed unfair but that was the way it was until Pope John the XXIII took Latin from the Mass while also making the desperate use of tissues pinned to girls' heads instant history.

Summer in the City of South Amboy wasn't much different than it was in the winter, spring and fall but it was our very own little corner of the world. Downtown, at least, had Broadway filled with little shops, bakeries, Mom & Pop groceries, O'Connor's Soda Shop, Safeway and A&P, not much bigger than the Mom & Pop stores, Oppenheimer's 5 and 10 cent store, banks, Greco's Barbershop, and, the Library with Sadie Dowdell at the helm. For us kids from "the other side," we had to first walk the lonely road to get to Main Street, with Ogen's Tavern on one side of the street and Kurzawa's Funeral Home on the side we walked. We had no choice as there was no sidewalk on the other side of the street. Crossing Main Street we'd always make a stop at Prasnal's, the new owners of Astarita's store. Heading to the comic books section, I'd check to see if a new Little Lottie hit the stands. To me, that was the only comic

Cops were always around, especially by Prasnal's store. Augie Charmello, was a favorite because he was so friendly, always with a big smile on his face. Police cars had been called "Black and Whites" back then, and license plates, called "tags" in the South, were made by prisoners, or so it had been said. Once we reached the intersection of Stevens Avenue and Augusta Street, we'd turn left and continue down Augusta Street to Broadway. Oppenheimer's or the Library were our usual destinations, often both. In Oppenheimer's store, while the old ceiling fan clicked its way slowly in a circle and with the bells hanging on the entrance door announcing our entry, Nancy would go one way while I went straight to the ribbons where I'd buy one foot of either blue or pink. Digging the 3 pennies from my pocket to pay the woman who may have owned the store, Nance and I would leave the way we had come carrying our newly borrowed Nancy Drew books from the Library and our "purchases" from Oppenheimer's to start the long way home in the hot summer heat.

"In my little town...I grew up believing God keeps his eye on us all...and he used to lean upon me as I pledged allegiance to the wall. Lord, I recall my little town..." Yes, I surely do.

LETTERS

Flip,
I enjoyed reading your article in the latest South Amboy-Sayreville Times. There was a lot of good information there. Beer is my adult beverage of choice. I've attached a photo of 4 cans of beer that I own. They are unopened and still have beer in them! I think my dad bought them back in the 60's. Maybe someday, if I ever get desperate I'll crack one open. Do you think it'll be skunky?

The one above was the first found or reported in South Amboy, and a family on Deerfield Rd. in Sayreville found a large amount of this trouble-some insect in their swimming pool. Middlesex College Creates New Men's Volleyball Team

Middlesex College has received a \$10,000 grant from the NJCAA Foundation and First Point Volleyball Foundation to start a new men's volleyball program beginning in Spring 2022. The college was among 15 two-year institutions chosen for the grant by the NJCAA Foundation and First Point Volleyball Foundation.

Middlesex College currently has 14 Division III (non-scholarship) varsity athletics teams, including the women's volleyball team.

In May, the NJCAA in collaboration with First Point Volleyball Foundation, announced a \$200,000 grant to support the growth of men's volleyball as an emerging sport within the association. The NJCAA Foundation awarded grants to 15 member colleges, including Middlesex College, to support the initiative towards men's volleyball becoming a full NJCAA championship sport.

According to Assistant Athletic Director Carey Monkowski at Middlesex College, the new sports opportunity is a direct response to the broad popularity of the sport and its appeal to current and prospective students.

Middlesex College Success Bound Program Wins State Award

The Middlesex College Success Bound program was selected as the winner of the Excellence in Educational & Interpretive Programming Award by the New Jersey Recreation and Park Association.

The award was presented in May at a ceremony at the Summit Family Aquatic Center in Summit, NJ.

"The goal of the awards program is to focus state attention on the achievement of parks and recreation agencies, to recognize the continuing efforts of staff and volunteers, and to acknowledge support extended by member agencies," said Karen Zimmerman, co-chair of the awards committee.

Success Bound is a five-week summer program for students from Perth Amboy High School and the Academy for Urban Leadership. The program combines classroom work – for which the students receive college credit – with career exploration and an internship at a local nonprofit or government agency.

"This idea was conceived out of an inspiring conversation between Ken Ortiz, director of human services for the City of Perth Amboy and Yamillet Febo-Gomez, director of grants at Middlesex College, at the table in the Recreation Department," said Helmin Caba, mayor of Perth Amboy. "Since then, the program grew to exceed expectations and became the archetype for youth development in career readiness in our city. I want to thank the visionaries of Success

Bound, Ken, Yamillet, and José Laureano, executive dean for student and enrollment services, for their collaboration in making our scholars rise."

After completing the program, students are eligible to enroll free of charge in an introductory course at Middlesex College for Fall or Spring.

"Success Bound aims to equip our scholars with the support they will need to be a successful student prepared for college by learning time management, how to work in groups, goal setting, the College and financial aid application process, and career exploration," said Angelo Abreu, director of Middlesex College's Perth Amboy Center. "Our scholars experienced a jam-packed session of college readiness workshops, and they engaged with professionals in a multitude of industries. Success Bound was able to fulfill the mission of the program in the virtual arena and managed to have our students feel connected and engaged while remote."

Each afternoon, students would participate in a paid internship. These included the YMCA, the Business Improvement District, Puerto Rican Association for Human Development, as well as the City's Census, Office of Social Services and Housing, and the Recreation Department.

"The goal of Success Bound is to make sure our scholars know that college is a real option for them," Abreu said.

Really Old People

By Al Gomolka Jr.
Times Poet Laureate
c. 1983

*Really old people
Are a forgotten commodity
of this society
Like a torn encyclopedia
Or a piece of fine silverware
left to tarnish
By the younger generations
They have seen life
at its utmost
And their potential to
Advise and instruct
and pacify young people
By words or example
Or even just a look
on their aged faces
Is a gift that is
enormous and unlimited
And something this
society should revered.*

Why Should I Advertise?

A man wakes up after sleeping on an advertised bed. He washes with advertised soap, shaves with an advertised razor, eats advertised cereal, puts on advertised clothes, and glances at his advertised watch. Stop Living With Knee Pain!

Get Pain Relief Without Surgery

If you suffer from severe knee pain due to osteoarthritis and have tried other treatments that simply did not work, then this may be the most important thing you read all year.

For those of you who have ever experienced knee pain caused by arthritis can attest to how it hampers even the simplest of day-to-day tasks. The excruciating

pain coupled with limiting regular activities can be upsetting.

Up to now, there have been limited options on how to treat this. Pain medication with all the negative side effects or agonizing surgery of total knee replacement with recovery times that lasts for weeks and even months. **But now there's another alternative...**

At Manalapan Spine Care & Rehabilitation we are treating arthritic knee patients with **Viscosupplements** (Gel treatments). Even though they're made by a pharmaceutical company, these gels are NOT drugs. They're natural!! The gel bonds with existing natural fluid in the knee between the bones. Most patients feel improvement quickly and can resume activities previously restricted due to knee pain!

Covered By Medicare & Most Insurances

FDA Approved
Viscosupplementation Gel injected at the exact point where it will do the most good

Viscosupplementation is an advanced medical treatment where trained doctors put special FDA approved (covered by Medicare and most insurance companies) lubricating medicines directly into the arthritic knee joint.

Here at Manalapan Spine Care & Rehabilitation, we use advanced technology that uses advanced imaging to make sure these very thick gel-like medicines get to the right spot to achieve the best possible results. This special digital imaging allows doctors to see directly into the arthritic knee joint and deliver the special lubricant precisely where it should go to get the most benefit. And it also allows the procedure to be very comfortable for many patients. Research has shown that doctors miss the correct area in the joint space up to 30% of the time. We eliminate this problem with our special digital imaging capabilities. We use a variety of lubricants and even if one gel didn't work another may work great. Making sure we use the right lubricating gel may be the key in the treatment.

Not everyone is a candidate for this treatment, not all knee problems can be treated this way, but we want to help you find out and offer you an opportunity to come in and let us evaluate your knee to see if our treatment would be appropriate for you.

Home Is Where the Heart Is: Sayreville Homeowner Transforms Old Oak Tree into Art

By Megan Amato
(Photos Submitted)

Confronted with a diseased, deteriorating and insect ridden tree on the front yard of her property, Sayreville homeowner, Mary Ann Spisso chose to think of solutions expressed in color, where most would see only black and white. Mary Ann, or as I call her, "Aunt Mare," has been metamorphosing items once considered used, broken, and rendered useless, into repurposed, quirky, new treasures for as long as I can remember. Spray a fresh coat of paint on a pair of old stained shoes or place an aged kitchen sink in a garden and plant a bed of flowers inside. Things of this nature are not beyond the everyday for my ever remarkable and unique Aunt Mare. So, I dare not be surprised to walk past her house one afternoon to find what was once an old rotting tree, now a majestic, inspired work of art.

After 70 some years casting a cooling pool of shade over the wide stretch of her front yard, Mary Ann's oak tree was now readying to be grinded down by the local cutting service. She found herself asking, "What could one do with a tree stump?" With a surge of inspiration, she began searching the internet, uncovering what is referred to as Chainsaw Art; trees turned into sculptures through freehand custom carvings. Eventually she fell upon the image that spoke to her; a heart. Seeing the possibilities portrayed on screen and then in her mind's eye she knew then that is what her old tree would become.

Mary Ann made some phone calls and got a recommendation to Delaware tree cutting artist Josh Miller. With the date set, Josh drove down early Wednesday May 19th ready to begin work. Now, the shape of the tree will dictate what the carving will ultimately become. I should mention the tree is not a single tree, but in truth, two trees that grew together as one. Speaking to the poetry in this one might conclude that a heart and the ultimate design which resulted is possibly what was meant to stand there all along.

With a black can of spray paint in hand for outlining, Josh considered the shape of his subject and envisioned the heart he saw within. "Is it alright if I make it a whimsical piece," he asked? "Do whatever comes easy," Mare answered. At this point my aunt was surely stirring in quiet anticipation, for if ever there is a word to describe her style, "whimsical," triumphs all. Josh was motivated by the concept, explaining it is not often he has the prospect to create pieces so abstract and free flowing. He worked intensely, only taking a few breaks from 9am to 5pm. By day's end, Josh's vision now stood complete: Two large hearts magnetize

Mary Ann's nephew Bobby sits on top of the beautifully finished heart.

back-to-back where the two trees collided, and an outright facing heart that seemingly manifests from within and rises to greet you at the front. Cascading vertical lines are engraved in the base of the statue giving it a surreal and illusory quality. Josh used various sized chainsaws for both the large and detailed cuts, a torch for color and depth, and finished the process with a natural oil stain. If sealed once a year it will preserve in this form for another decade.

As statues are often commissioned pieces to symbolize a movement, I see this statue similarly as an inspired sign of the times. During the past 18 months we have endured a trying season. We faced disease and our sense of safety was threatened. We experienced devastation in the face of uncharted territories and were forced to new constructs of existence. The statue, likewise, draws its parallels that uplift and inspire. It has created beauty within its own disease and perceived destruction, it spotlights a theme of conformity with the unusual and perhaps the most apparent of all, it symbolizes growth, opportunity, and prosperity through adversity. I feel it urges us to continue to make room for love, possibility and beautiful feelings in our own hearts and lives, no matter the circumstance, for there is a higher outcome to be imagined.

Hearts, polka dots and cheerful things of similar spirit have long held a place in Aunt Mares décor. I believe this choice and reoccurring form of self-expression for her is more an extension of self than she realizes. To me, it symbolizes the love and joy she is both creating within and has always so willingly given to others. She fills her life up with such heart that it cannot help but pour over onto those around her. A perfect addition to her home and Enchanted Garden, this tree too, will give unto others, as it exudes a beacon of love, light and hope of new life onto the streets of our hometown.

50 Years Ago: Sayreville Won County Championship

By Tom Burkard

1971-The Sayreville Bombers baseball team of '71 had a tough act to follow from the previous season. Their powerhouse predecessors compiled a superb (22-4-1) mark, while winning the Central Jersey (CJ) Group IV Sectional title, and gaining lots of respect as one of the top clubs in the county and state.

What made the '71 season more unique and challenging was the fact that this was the first time in many years the Bombers baseball program would have a new varsity head coach, Norbert "Norbie" Smith, who succeeded the great legendary mentor John Wortley Sr. Wortley, who served the dual roles as longtime Athletic Director (AD) and head varsity baseball coach for 13 years, was affected by a new N.J.S.I.A.A. ruling that prohibited an AD from holding two positions at the same time, so he chose to continue as Athletic Director and relinquish the coaching position he loved so much. Coach Wortley's career mark was a phenomenal (201-82-2).

The 1971 roster featured many new faces who filled the 11 spots vacated by the '70 graduates. By all accounts, it looked like it was going to be a real rebuilding task for rookie Coach Smith and the Bombers, but there was plenty of talent, and it provided Sayreville with a very rewarding and successful season.

Led by ace lefty pitcher Greg Lyon, and a host of other standout baseball players, Sayreville, hooked up with a powerful Piscataway club for the Middlesex County

Coaches Baseball Association Tournament (MCCBAT) county championship, in one of the most exciting games in school history. There were 500 plus fans at the contest which was played under the lights at Memorial Stadium in New Brunswick, and they were treated to a really excellent evening of baseball action. The score was tied 5-5, sending the game into extra innings, and Lyon was relieved by Kevin Corrigan in the 7th.

In the 8th inning, catcher Mark Champion, who was having a rough season, came through big-time with a line drive single to score pinch-runner Mike Kosmoski with the game-winner. Champion, who entered the game with a .164 batting avg. had a perfect 4-for-4 game and drove in 4 of Sayreville's 6 runs, as the Bombers captured the crown, 6-5, with Corrigan getting the win in relief. Corrigan and Lyon allowed only 3 hits between them.

The Sayreville lineup for this memorable championship game was; Dan Hockenjos ss Al Pasztornyicky 2b Steve Gorrie 1b Tony Mancini rf Bill Champion lf Jerry Ust 3b Mark Champion c Bruce Buckiewicz cf Greg Lyon p. Reserves-Kevin Corrigan p Mike Kosmoski rf.

Championship Notebook:

Sayreville also captured the CJ Group IV crown, but bowed out to Ewing in the State Group IV semis, and finished the 1971 season with an outstanding (19-10-1) mark...Lyon was an All-County 1st Team selection, and was drafted by the San Francisco Giants MLB team... There were

only 3 sophomores on the Sayreville roster, including Bill D'Amico, Walt Rondesko and Mike Kosmoski. Rondesko, who had a fine season with a (4-2) record, shared a few memories of the '71 team and also the title game. He recalled that "The seniors were the glue to the team. They treated the underclassmen like you were their peers. Our team got hot at tourney time." Walt also remembered how excited he got when he was told to warm up in the bullpen before Lyon was leaving the game, but "Kevin Corrigan was called in to relieve."

The Walt Rondesko File

Walt Rondesko was one of the greatest Sayreville Bombers pitchers in history. During the two-championship season of '71, he was (4-2). Rondesko had an excellent high school pitching career going (6-2) as a senior in 1973, to up his record to a final overall mark of (14-7). Walt was also a standout hitter, and in '73, he blasted a game-winning homer off of Edison ace Bill Lehman, for the Bombers only hit, as they defeated the future major leaguer, 1-0... Rondesko also excelled in football, and was a Home News 1st Team All-County selection as a kicker in 1972. During the season, he unloaded an unbelievable 72-yard punt, (during a rainy game), and was also a consistent field goal, and extra point kicker...Today Walt still enjoys playing softball as a middle-infielder for the Prime Time Bombers in the Over-60 League at Old Bridge. He said that "I started playing again in 2018, which was the

first time in 31 years. It's a great feeling to reconnect with old teammates from 50 years ago. Our team has lots of injuries, but we're competitive, and made the playoff finals."

Bill D'Amico Remembers '71 Bombers

Bill D'Amico was also one of Sayreville's all-time great pitchers. He was (3-2) in 1971, and as a senior in '73, a superb (7-1), finishing his brilliant career with a (15-4) record. He along with Walt Rondesko and Mike Kosmoski were the only sophs on the great '71 team. Bill was happy to share some very interesting memories with me. He also praised their upper class teammates, saying "The seniors, especially Kevin Corrigan and Bruce Buckiewicz took us under their wings. Bruce carried the team early in the season, and Kevin and Dan Hockenjos got hot during tourney time. Corrigan had the number of one of the top teams in the county that year, Piscataway, and they couldn't hit him. It was one of the reasons we won both the county championship and also the CJ Group IV title.

For Walt, Mike Kosmoski and me, Coach Smith was our freshman team coach, so we were familiar with his style. That was a great year for us sophs. Those seniors made the adjustment for us easy, and they were great examples for us to emulate that bode us well for the rest of our high school career. As a soph, I was in awe of watching Greg Lyon pitch. We were both lefties, and I tried to be the pitcher he was that year. I was lucky to be able to watch and observe such a talented hurler as a sophomore."

Safety Rules for Summertime Pool Fun

More and more homes now have swimming pools. Even those people who don't have pools, at least have access to good places for their families to swim.

With classes from the American Red Cross, schools, community programs and other sources, all children should be taught the fun of swimming - and swimming safely.

Besides learning to swim, there are some basic rules for both swimmers and home pool owners. Here are a few of them:

- DO NOT allow "clowning around" in or near the pool.
- Teach children water games for friendly competitions to avoid poolside behavior such as pushing, running, dunking or performing stunts.
- Teach children to be especially careful on water slides.
- Be sure an adult is present any time children are swimming.
- Know for sure that the water is deep enough before diving in.
- Flotation devices are fine, but do not depend on them absolutely.
- Keep electrically operated radios, tape players or other equipment away from the pool.
- Serve cold drinks in plastic or disposable, unbreakable containers.
- Keep rescue equipment close to the pool and in good condition.
- Make sure your pool is fenced on all sides.
- Don't stay in the water too long. Keep in mind that the glare/reflection of the sun on the water can produce a severe burn even after a very short time.
- Always be alert. Don't overestimate your abilities or those of children in your care. Play it safe.

Have fun in your pool or other swimming areas. Make sure each family member learns the rules so that they become second nature. Then, relax and enjoy swimming, one of the best and most popular summertime activities.

Fishing Flashes

By Teo "Weebles" Weber

Salt Water

Aside from the usual summer storms, summer fishing has entered a normal pattern. Beach fishing in Raritan Bay remains a pick on Bluefish. Fluke fishing in the bay is still more shorts which now means you have to fish hard to get keepers. Another big 8 Pound Fluke was caught in the bay. A friend in a private boat told me they fished in the Shrewsbury River and had only one keeper. Some Triggerfish have been caught in Shark River Inlet. More Kingfish have been caught in the surf in Monmouth County, but LBI Surf remains the best spot for these fish. Bluefish, Shark and Rays can be found there too. Party Boat fishing for Blues has been good, mostly caught on jigs with bigger fish going up to 10 pounds. The first Bonito have been caught, otherwise boats that go bottom fishing are bringing in Ling and no one will have difficulty catching their limit of 2 Seabass. Barnegat Bay still offers Fluke with more keeper fish, plus Weakfish and a few Striped Bass and Blowfish. The Spanish Mackerel are also making an appearance as well.

Fresh Water

Statewide, the recent heat and rains have slowed things up a bit. Largemouth Bass and Panfish are being caught at various lakes across the state. Trout fishing is poor due to the hot weather. Spruce Run Reservoir has hybrid Bass as does Lake Hopatcong. Pike are in the Passaic River and can be caught when conditions permit. Carp and Catfish are all over, especially in the Delaware River.

Sr. Diane Szubrowski

Sister Diane Szubrowski, 83, former president of the New Jersey Regional Community of the Sisters of Mercy of the Americas died peacefully on July 7, 2021 at McAuley Hall Health Care Center, Watchung, after a brief illness.

The only child of Joseph and Helen Szubrowski, Sister Diane was a native of Trenton, NJ. She graduated from Cathedral High School, Trenton, in 1955 and entered the Sisters of Mercy upon graduation. She spent her early years teaching in St. Francis School, Metuchen; St. Mary Elementary School, South Amboy; and St. Elizabeth School, Bernardsville. She returned as principal of St. Francis School before her appointment in 1974 as Personnel Director for the Sisters of Mercy. In this capacity, she earned the love and respect of the sisters whom she served. In 1978, Sister Diane was elected Councilor for the Sisters of Mercy of New Jersey, serving for eight years as an advocate for peace and justice. As founder and director of Mercy Peace Center in Watchung, she lectured, traveled, and hosted events to bring the message of peace to others. Recognized for her leadership skills and compassionate care for the sisters, in 1994 she was elected President of the New Jersey Regional Community of the Sisters of Mercy of the Americas, a position she held for 13 years.

Sister Diane earned a bachelor's degree in elementary education from Georgian Court College (now University), and a master's degree in education as well as a master's degree in social work from Rutgers University. She served as a family therapist at Catholic Charities in the Diocese of Metuchen from 1988 to 1994.

In 2005 on the occasion of her Golden Jubilee in the Sisters of Mercy, the sisters honored her at their annual Benefit Dinner Dance. In the introduction that evening, it was noted that her compassionate interest in others led her to become involved for more than thirty years in issues relating to drug and alcohol abuse. In 2007 Catholic Charities named her the honoree for their annual Flame of Charity Dinner, giving testimony to her years of dedication and her living out the Mercy core values of service, compassion, justice, respect, and integrity. In 2008 Sister Diane began a new phase of ministry at Georgian Court University, where she served on the administrative staff in the Office for Institutional Advancement and later as a volunteer for donor relations until 2019.

Sister Carol Henry, Executive Director of Mercy Center said, "Her dedication and hard work has helped to guarantee that our students can have the kind of academically challenging and spiritually enriching education that they need and deserve."

Sister Diane is survived by loving cousins and members of the Sisters of Mercy who will miss her deeply.

Memorial donations may be made to Sisters of Mercy of the Americas, 1645 US Hwy. 22 West, Watchung, NJ.

Local Artifact

If you were around South Amboy back in the '60's, you probably stopped at The Gay 90's Bar on First Street, and had a beer and pizza. The ownership changed through the years, and in the mid-1980's, the name was Chet's Gay 90's, where you could get really delicious thin-crust pizza pie. The owners were the Wortley brothers, Tom and Chet, and a lot of good memories were made at this local establishment.

In Memoriam

*We Thought of You Today,
But that is nothing new.
We thought of you yesterday,
And will tomorrow too.*

*We think of you in silence,
And make no outward show.
For what it meant to lose you,
Only those who love you know.*

*Remembering you is easy,
We do it every day.
It's the heartache of losing you,
That will never go away.*

Frank was born and raised in South Amboy and graduated from Oratory Prep High School in Summit, NJ. He then went on to Fordham University, eventually transferring to Johns Hopkins University. In 1994, he was named Business Leader of the Year for South Amboy by the Old Bridge, Sayreville and South Amboy Chamber of Commerce.

Unquestionably, Frank's greatest joy was his family. He treasured spending time with them on vacations to Bermuda and at his summer home in Sea Bright. He took great pride in seeing them all graduate from college and graduate school. In his spare time, he enjoyed golfing, gardening and working on home repair projects in his basement workshop.
